

Leadership Tips

MICRO ISSUE

on The Ideal Delivery System

A publication for Open Bible Churches

by

Dr. Paul Leavenworth, Executive Director, The Convergence Group

May 2010

This Micro issue of *Leadership Tips* is the result of an assignment to Dr. Leavenworth's "Leadership Development Methods" course Winter 2010 at Eugene Bible College. The students were asked to brainstorm about the "ideal" delivery system for them (not others). This one was especially insightful.

What would make an "ideal" delivery system for Christian continuing education model:

- **Tent making skills**
 - Carpentry
 - Teaching (ESL)
 - Janitorial
 - Property/apartment management
 - School bus driver
 - Lawn care
 - Barista
 - Child care
 - Any type of business at a school for student employment/work study, etc.
- **Mentoring**
 - Effective personal, career and/or spiritual mentoring
- **Top notch education**
 - Cost efficient
 - Quality/qualified instruction
- **Residential**
 - Residential with option of non-residential depending on family circumstances
- **Time frame**
 - 2-year with option of two more years
- **Accreditation**
 - Highest level of accreditation available
 - May not include regional, but certainly exhibit some level of educational oversight
- **Post-graduation deployment**
 - Internship – legitimate and impacting
 - Cross-organizational
